Professional Training

MERN Stack Development | Cantiliver Labs   **Jan 2025 – Feb 2025**

- Developed 12 mini projects, including a dynamic Wallpaper Carousel, a real-time Weather App with API integration, and responsive Landing Pages.
- Built 3 full-fledged applications, such as event management platform, an SDE Resource Hub, and a gaming-themed Landing Page.
- Implemented authentication, API handling, and database design, utilizing React, Node.js, Express, and MongoDB for scalable web applications.

Projects

StoryCraft AI | *TypeScript, Next.js, NextUI, Gemini API, Replicate AI, Clerk*   **Mar 2025**

- Developed a full-stack AI-powered storytelling application that generates engaging and creative children's stories.
- Integrated Gemini API for dynamic, AI-driven story generation and Replicate AI for real-time image creation.
- Implemented secure authentication with Clerk, ensuring a seamless and safe user login process.

NextHire | *HTML, CSS, JavaScript, Bootstrap*   **Jan 2025**

- Build and deployed job board website featuring 6+ key sections, including browsing job listings, searching CVs.
- Implemented real-time job filtering and dynamic updates using JavaScript, enhancing user engagement by 30%.
- Hosted and maintained 100+ job listings, enabling seamless interaction for job seekers and recruiters.

Certifications

Building Web Applications in PHP | *Coursera*   **Dec 2024**

- Learned frontend and backend web development focusing on building dynamic and interactive web applications.
- Gained experience in handling user inputs, managing sessions, and rendering dynamic content.

Data Structire And algorithms | *Geeks for Geeks*   **Aug 2024**

- Mastered data structures and algorithms, implementing sorting, searching, and greedy algorithms.
- Solved 450+ coding problems and built a Music Player System using React (frontend) and Java (backend) with interactive media controls and a responsive UI.

Server-side JavaScript with Node.js | *Coursera*   **May 2024**

- Developed full-stack applications, focusing on frontend-backend communication using JavaScript and Node.js.
- Worked with asynchronous programming, API integration, and server-side rendering, essential for modern web development.

Achievements

- Solved 100+ problems on LeetCode, earning 3 badges for problem-solving excellence.   **Mar 2025**
- Earned 5-star ratings on HackerRank in C++ and DBMS, showcasing strong technical proficiency.   **Sep 2024**
- Solved 450+ DSA problems on GeeksforGeeks and ranked in the top 30 in contest rankings.   **Aug 2024**

Skills Summary

Front-End: *HTML, CSS, JavaScript, React.js, Next.js, Bootstrap, Tailwind CSS*
Languages: *C, C++, Java , Python , Javascript*
Version Control: *Git, GitHub*
UI/UX: *Canva ,Figma to Code, Responsive Design,*
Other: *REST APIs, Firebase, MongoDB, Node.js, Express.js*

Education

Lovely Professional University   **Aug 2022 - Present**
Bachelor of Technology in Computer Science and Engineering – CGPA: 7.54   *Punjab, India*
BR DAV Public School   **Apr 2019 – Mar 2020**
Intermediate – Percentage: 76.6%   *Begusarai, Bihar*
DAV Public School   **Apr 2017 – May 2018**
Intermediate – Percentage: 76.6%   *Begusarai, Bihar*
